

# Ledbury Archery Club

AGM 2018

## EQUIPMENT OFFICER'S REPORT

This year we have been focusing on getting our equipment more organised and fit for our needs for both the weekly running of the club and to accommodate Have a Go sessions, Beginners Courses and provide new members with startup equipment to see them through to buying their first bow.

The most striking change has been the installation of the new container within which we are now organising the kit - we have to make it easily accessible.

We have received equipment from donations as well as Lugg Valley Club following its closure but have also purchased new items such as arrows, strings etc. as required to ensure our current equipment is in good working order.

We have an inventory of all the equipment we own which is kept regularly up to date. I have also been making regular checks particularly on club arrows to ensure they are complete with all fletches etc., ready for use.
